

London Luton Airport Environmental Policy

London Luton Airport as a part of TBI fully subscribes the TBI environmental policy. In doing so, the airport recognises and accepts its responsibility to minimise the environmental impacts of its business activities and will continuously review its environmental performance to manage those effects.

In line with TBI environment policy, London Luton Airport commits to:

- Comply with relevant legislation and regulations.
- To contribute to a formal Environmental Management Manual at corporate level and an individual Environmental Management System at airport level.
- Seeking continual environmental improvement and prevention of pollution at the airport.
- To respect the environment and prudent use of natural resources.
- Enhancement of London Luton Airport's operations to improve energy efficiency and reduce associated carbon emissions.
- Ensure responsible development of environmental policy by taking into account the sustainable profitability for our shareholders.
- Ensure commitment of employees and business partners on environmental procedures established.
- Actively participate in local, national or international activities aimed at mitigating the environmental impact of airports and developing sustainable development policies.
- Undertake an annual review of environmental policies, objectives and targets.
- To set specific objectives to address our unique environmental issues.

This Environmental Policy will encompass those business activities, services and locations directly under the control of London Luton Airport.

Whilst not detracting from or diminishing the responsibility of others, London Luton Airport will seek collaboration from its service partners to operate in compliance with their regulatory obligations; will encourage the adoption of industry best practice and the principles within this policy.
